RHUBARB

Shrub contents are sugar, acid, and occasionally alcohol to preserve the fruit, in fact that was the original purpose of a shrub. Prior to the invention of refrigeration, a shrub was a means of preserving fruit long after its picking. Shrubs were popular in Colonial America, often mixed with cool water in order to provide a pick-me-up amidst hot summer days.

McClary Bros. is based in metro Detroit and handcraft small batch Drinking Vinegars.
