PINEAPPLE FENNEL  
RHUBARB

Shrubs consist of sugar, acid, and occasionally alcohol to preserve the fruit. In fact, that was the original purpose of a shrub. Prior to the invention of refrigeration, a shrub was a means of preserving fruit long after its picking. Shrubs were popular in colonial America, often mixed with cool water in order to provide a pick-me-up amidst hot summer days.

McClary Bros. is based in Metro Detroit where they handcraft small batch Drinking Vinegars.
