HUE vodka represents the flavor sensations of the best parts of the vodka spectrum. We use the best soft red winter wheat, sourced locally from Williamston, MI. Our philosophy is better grain makes better vodka. We think it makes Michigan's best vodka. Remember... Don't just drink it because it's better. Drink it because you are.

It's Capital... For a reason. We use a neutral spirit base made from the best locally grown grain. We then flavor it with select exotic botanicals, many grown in the mid-Michigan region, producing a unique, clean style of gin. **COMING SOON...**

Unaged whiskey is not a thing of the past. It's right here, right now, distilling in its rawest form. Acquire the best ingredients, distill the best product and drink it now. We know that it takes a level of hubris\* to admit you like it—we know you'll want that feeling again. **COMING SOON...**

\*Hubris - excessive pride or self-confidence (of course you knew that)
