

INVENTIVE. SMALL BATCH. MICHIGAN GROWN.

At American Fifth, our dedication to creating high-quality cocktails began with our first love, developing inventive, handcrafted spirits of exceptional quality. We rarely follow conventional rules, and instead, pride ourselves on being industry leaders in producing distinctive, one-of-a-kind spirits.

As Lansing's first distillery, we are proud of our roots and utilize locally sourced grains from Michigan and the surrounding Midwest Regions to craft the beautifully bold flavors that customers have come to expect in each American Fifth spirit.

From our bright, crisp Vodka to our seven botanical blended Gin to our precisely aged Malt and Bourbon Whiskeys, each small batch offers unique, approachable layered flavor profiles.

Whether you are enjoying a cocktail or spirit at our tasting room or concocting your own creation at home, we hope that our spirits help to create an atmosphere that encourages celebration, discovery, and relaxation.

REMARKABLE QUALITY EVERY TIME.
